

Hope for the world

There is hope for this world
There is a Heart in every man
A Heart in every woman
A Heart in every child

Yes I know the Dark's still ruling
The show down here on earth
But the Heart is present too, love
In the middle of the dazzling dirt

Will there ever ever be a winner
In this old damned crazy fight
Between the holy and the sinner
Between the Dark and the Light

Not everything is civilized
Civilized to death
Not everything's desensitized
There's Something still alive
Society you cannot kill
Our Heart – our only friend
The Primary will always be
Our Heart will always resurrect

Not everything is lost
Though the damage has been caused
Not everything is dead
Not everything's fake yet

Dark and Light, black and white
Will they ever marry truly
Or will it stay this grey
Will they ever dare to truly

Look into each other's face
And be put in the place
Of the other, and not be bothered
By the pain that will arise
That will open our eyes
Enliven the body from a long long sleep

Awaken the mind from its bad bad dream

Ref:

For not everything is civilized
Civilized to death
Not everything's desensitized
There's Something still alive
Society you just cannot kill
Our Heart – in the end
Oh the Primary will always be
Our Heart will always resurrect
