

Slavery

Every day I work to support the rich
So they can order an expensive bitch
I tell you – I won't die – in slavery
My mother didn't bear me to become a slave
To suffer for the deadness of the stock exchange
I tell you – I won't die – in slavery
I won't buy – this deadness – their slavery

Ref.

When I think one day I'm free
A smile on my face illuminates me
When I imagine I will live outside of the system
And freely give my heart – instead of my mind
Which ain't mine – b't always buys – fake safety it's slavery

When I'm unemployed there's a knife on my throat
Clothes pegs curtains or collecting dirt
A free choice – how I die – in slavery
I tell you – I won't die – in slavery
Every month I pay to the health machine
Treating our bodies as unconscious things
I'm not sick – I won't die – in slavery

Ref.

When I think one day I'm free
A smile on my face shows immediately
When I imagine I will live outside of the system
And freely give my heart – instead of my mind
Which ain't mine – b't always buys – fake safety it's slavery
It's slavery

Hurray hurray the capital is free and we're its slave
Hurray hurray the capital is free and we are slaves
They lie to me this system 's the least bad way
Well I don't buy – I won't die – in slavery
One way or another I will find my way
You may warn me but whatever you say
I won't buy – I won't die – in slavery
Yes you may warn me but whatever you say

One way or another I'll find my way
I won't die – I won't buy – dead safety
I won't buy – this deadness – their slavery
I won't buy – I won't die – in slavery
It's slavery slavery slavery
