

## Wait

Patience  
Human beauty  
Time will come  
The radiance  
Of the star  
You are  
Will glance

Wait – faith  
Ignore safety  
And don't react  
Just see all thoughts  
And feelings  
As random facts  
Not as your acts

Be still  
In your moving  
And your joy  
See your Purity  
Can't be – destroyed

Yet everything  
Will try to  
Pull you back, back  
Into the world of pleasures  
And dramas too ooh ooh

Everything  
You don't know  
You are longing for, arrives  
If you're not in between  
Die and arise  
Into Real Life  
And wait – stay – quiet ah oh  
Wait – let the endless riot – rage

Be firm  
The world's seducing

All of the time – secretly  
Don't stir  
The pearl comes through you  
Wait patiently ooh ooh

Some water  
And some food  
You don't need so much  
No feeling good  
Just watch and see the judge  
The witch and the bitch  
And the killer and the rapist  
One by one all passing by

Just like all moods  
And there's nothing you should – do  
With the guests  
Just rest

Just sit, lie, and walk, talk,  
Eat, sleep, make love  
Work and watch  
Don't add anything yourself  
Anything new  
Let it happen through you ooooh

And wait wait  
Till your hate burns itself  
And the light and the shade  
Will fade into One  
Into One
