

Children of the Earth

We are all children of the earth
Born to be free
We will join the will of nature
For there is no me

We're all waves of the ocean
Sons and daughters
We're all made of water
Devotional flow

We're all flames burning in the fire
We are all the same
We will run until the last desire
Re-melts in the sun

We're a single breath in the air
Meant to be aware
While everywhere there's only one
Sky to share

But we don't realize
Still believe in lies
Rather see another one
Other than the Mother

Thinking we're so wise
Living in disguise
To finally regret
The Truth we forget

(repeat) We are all children of the earth
Born to be free
We will join the will of nature
For there is no me

We're all waves of the ocean
Sons and daughters
We're all made of water
Devotional flow
